

# Your gift makes a real impact

Your donation helps Burnaby Hospital meet growing medical demands by helping purchase critical equipment for areas like:

Emergency Care

**83,000**

patients a year

Intensive Care

**10,000**

visits each year

Mental Health

**4,300**

visits to the ER MHSU zone each year

Infant Care

**1,500**

babies delivered in a year

Surgical Care

**15,000**

scheduled & emergency surgeries each year

Cancer Care

**1,600**

patient visits each year, which will triple by 2035

# Give thanks to a health care provider

# Our Community. Our Hospital.

With the dedication of donors, volunteers and community supporters, Burnaby Hospital opened its doors to a small but growing Burnaby community in 1952.

Today, Burnaby Hospital is proud to provide exceptional, innovative health care to an expanding population of 500,000 people.

Burnaby Hospital remains a vital institution, meeting the expanding medical needs and challenges of a vibrant, healthy community.

# Grateful patient program

The **Cheers to You** grateful patient program honours Burnaby Hospital staff members, physicians, and departments who have made an outstanding effort to provide exceptional medical service to patients.

Show your gratitude towards your caregivers by contributing a gift that will fund improvements to the hospital that supports our staff in their life-saving jobs.

Here's what a few grateful patients had to say:

**"I just wanted to say how grateful I am. My physician at Burnaby Hospital made me feel like we were working together to find solution-focused care."**

**"I want to say that all the people I encountered, from the Admitting Desk to the surgical team were all very friendly, helpful and knowledgeable."**

**"I spent five days in the hospital following emergency surgery and wanted to express my gratitude for the level of care I received."**

**"Even though I was in and out of consciousness in my time at Burnaby Hospital, I know I received the best care. I can still hear the doctors and nurses as they performed life-saving miracles around me. The concern and empathy I heard from my doctor still sticks with me."**
