Subject: Burnaby Residents Need Phase 2 of Burnaby Hospital to Move Forward

Dear [MLA Name],

I am writing as a Burnaby resident to express my serious concern about the Province's decision to "re-pace" Phase 2 of the Burnaby Hospital redevelopment.

Burnaby is one of the fastest growing cities in British Columbia. Thousands of new homes are being built, yet the hospital that serves our community is already operating under significant pressure.

Phase 1 of the redevelopment is an important step forward, but it does not deliver the full capacity our community needs. Without Phase 2, Burnaby residents are effectively being left with half of the hospital our growing city requires.

Phase 2 includes critical infrastructure such as expanded ICU capacity, an upgraded medical imaging department, additional surgical space, and more acute care beds. Delaying this phase will only increase construction costs and further delay urgently needed healthcare services for our community.

Burnaby residents, donors, and community leaders have already demonstrated their commitment to this project, contributing more than $55 million toward the hospital redevelopment. Our community has upheld its commitment, and we expect the Province to do the same.

As a resident and member of this community I am asking for a firm and publicly confirmed construction start date for Phase 2 and public reaffirmation that Phase 2 will proceed with its full intended scope and no design reset.

Our community deserves transparency, accountability, and the full hospital it was promised without further delay.

Sincerely,
[Name]
